- BOTTLE** | 75 cl

PERFECT TO SHARE WITH FRIENDS ON ANY OCCASSION

Rosana Madrid Romero dedicates this special Collection of young wines to her mother Mercedes Romero and her daughter Martina Madrid. Three women represented by the Lily, a flower that means elegance, beauty and simplicity.

The Monastrell-Syrah is the wine from the 3 Calas collection that represents simplicity personified in Rosana Madrid Romero, second generation of the family. Expressive and with an intense personality, it is perfect to share with friends on any occasion.

VINEYARDS

In the vineyard, the irrigation and the stones in the ground help to keep the humidity at night. We carried diary ripening controls for its optimum harvest date. The Monastrell and Syrah grapes varieties used to make this wine are planted on a trellis to redirect its leaf mass and achieve homogenization in photosynthesis as well as oxygenation in its clusters, in order to obtain a lot of fresh grapes of great quality.

WINEMAKING

From the beginning of October, the manual harvest of the grapes begins. They are initially selected in the vineyard and transported refrigerated to prevent oxidation. After a second selection in the winery, the grapes are destemmed and crushed, then cold macerated and gently pressed. The clean must is fermented at 16°C, placing the grapes in small tanks for a 4-day cold pre-maceration that will give the wine more colour and freshness. When the alcoholic fermentation is complete at a controlled temperature of 26°C, it is kept for 3 days together with the skins, with gentle daily punching down to extract the fine tannins.

TASTING & PAIRING

Intense cherry red colour with medium – high robe. Aromas of red and black fruits, with notes of blueberries. Good entry into the mouth, being sweet and persistent, harmonious and pleasant. Ideal for all kinds of appetizers, cheese, stew, rice and meat dishes.
